Insight Into life

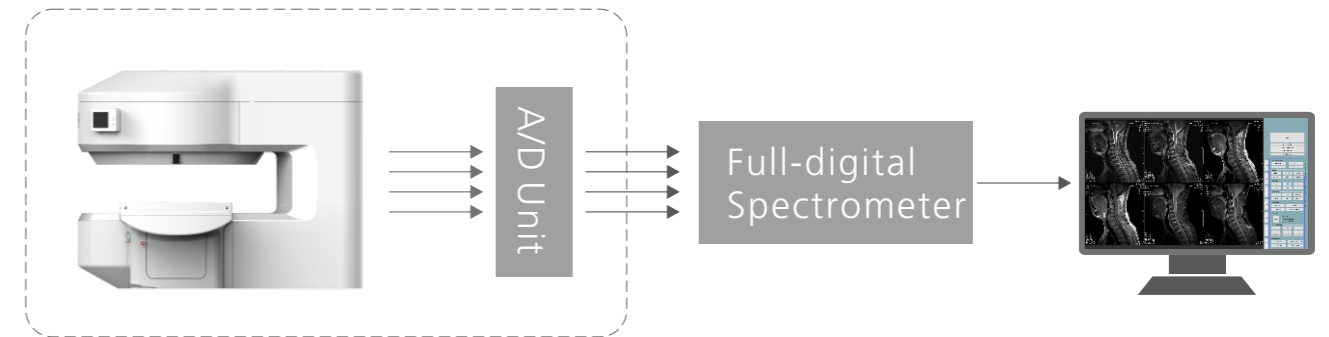

Advanced gradient system

- Combined with Self-shielding & Eddy-'0' technology, ensure a high image quality.
- High level linearity & Powerful output

Digital 4 channels RF system

- 4 channels PA receiving coils
- 4 channels AVD Unit
- 4 channels full-digital spectrometer
- Powerful RF output

Humanized design

Advocating the combination of technology and humanities, provide a comfortable operation experience to you.

- Large openness C-shape structure
- Touched LCD screen
- Integrated electric patient table

Perfect magnet

- Unique A-shimming technology, ensure a high level homogeneity of magnetic field.
- Intelligent temperature control system, supply a high stability of magnetic field.

Outstanding PA receiving coils*

Marked with *** means it is not a standard offer, please contact us for further information
